NAEHCY On-Demand Conference

Thank you for choosing the **NAEHCY On-Demand Conference** option.

For 2026, NAEHCY is not offering a live virtual conference option. Instead, the On-Demand Conference experience is created from recordings of select sessions presented live during the NAEHCY Annual Conference in Nashville.

These recordings are edited, reviewed, and prepared for on-demand viewing so participants can access conference learning on their own schedule.

On-Demand FAQs

Is the On-Demand Conference broadcast live?

No. The NAEHCY On-Demand Conference is not a live virtual conference experience. On-Demand sessions are based on recordings of presentations delivered during the live conference in Nashville.

The On-Demand option is designed as an alternative for individuals who are unable to participate live, either onsite in Nashville or through a live virtual format.

When will On-Demand content be available?

Because sessions are recorded during the live conference and then edited, reviewed, and curated for the On-Demand learning experience, access is not immediate following the conference.

On-Demand content is expected to begin becoming available approximately **2–3 weeks after the conference**, with the full collection anticipated within **four weeks of the conference's conclusion**.

Registered On-Demand attendees will receive an email when content becomes available.

What do I need to do if I am already registered for the On-Demand Conference?

No additional action is required at this time beyond completing your registration.

Following the NAEHCY Annual Conference, registered On-Demand participants will receive instructions for accessing pre-recorded sessions through NAEHCY's On-Demand recording library, hosted on the **Cadmium platform**.

NAEHCY's event management firm, **SPARGO, Inc.**, will email all On-Demand registrants with access instructions and other important information.

If you have questions before On-Demand content is released, please contact the NAEHCY Registration Team at **naehcyregistration@spargoinc.com**.

Q. What On-Demand content will I receive?

A. Access will depend on the On-Demand package selected at registration.

Participants who registered for a **Keynotes & Career On-Demand Bundle** will receive access to recorded general sessions and keynote presentations, along with curated conference sessions aligned with the career-focused bundle they selected. Available career bundles include:

- **Aspiring Advocates**
- **Advanced Practice and Leadership**
- **Leadership and Innovation**
- **Policy, Practice, and Advocacy**
- **Cross-System Coordination and Collaboration**

Some On-Demand participants purchased content based on one of NAEHCY's **2026 Conference Learning Tracks**. These participants will receive On-Demand access to recorded conference sessions affiliated with the learning track they selected.

The 2026 Conference Learning Tracks include:

- **Educational Access & Achievement**
- **Access to Services & Housing**
- **Effective Practices & Implementation**
- **Leadership & Systems Change**
- **Cross-Systems Collaboration**
- **Research**

Participants who purchased broader Full Conference On-Demand access will receive access to the recorded conference content included within that package.

Q. Will every live conference session be available On-Demand

A. The amount of content available will depend on the registration package purchased.

Participants with broader Full Conference On-Demand access will receive access to all recorded sessions included in the onsite conference recording library.

Participants who selected a **Keynotes & Career Bundle** or a specific **Conference Learning Track** will receive the recorded sessions included within or affiliated with that particular package.

Because On-Demand content is created from sessions recorded during the onsite conference, session availability may also depend on successful recording and final production review.

Q. How will I know when my On-Demand content is ready?

A. Registered participants will receive an email from **SPARGO, Inc.** when their On-Demand content is available. The email will include instructions for accessing NAEHCY's On-Demand library through the Cadmium platform.

Please be sure that the email address used for your conference registration is current and monitored.

Q. Will Continuing Education credits be available for On-Demand sessions?

A. NAEHCY is currently exploring **NASW Continuing Education approval for select On-Demand sessions**. CE availability cannot be guaranteed until approval is finalized.

If approved, participants will be required to complete the applicable session, a post-test, and an evaluation in order to receive CE credit.

Participants should also confirm their individual state licensing board's requirements regarding On-Demand, distance-learning, or self-study continuing education.

Q. Who should I contact with questions about my On-Demand registration or access?

A. For questions about registration, On-Demand access, or related conference logistics, please contact the **NAEHCY Registration Team** at **naehcyregistration@spargoinc.com**.
